DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents**NOTICE TO FILE CORRECTED APPLICATION PAPERS****Notice of Allowance Mailed**

This application has been accorded an Allowance Date and is being prepared for issuance. The application, however, is incomplete for the reasons below.

The specification has been found defective for the following reason: the illustrations on pages 41, 42 and 49 (page 49: the illustration of the "BB1", "BB2" and "CPN") of the specification as filed do not come within the exceptions of 37 CFR 1.58(a). Please furnish drawings per 37 CFR 1.81, delete the illustrations from the specification and amend text references as necessary (including "Brief Description of the Drawings" for any new drawings submitted). Alternatively Applicant may simply delete the illustrations and any references thereto from the specification.

In addition, the specification does not comply with 37 CFR 1.821(d): "Where the description or claims of a patent application discuss a sequence that is set forth in the "Sequence Listing" in accordance with paragraph (c) of this section, reference must be made to the sequence by use of the sequence identifier, preceded by "SEQ ID NO:" in the text of the description or claims, even if the sequence is also embedded in the text of the description or claims of the patent application." It is noted that nucleotide sequences appearing on pages 45, 46, 49 and 50 of the specification are not identified by SEQ ID NOs. Please amend the specification accordingly.

/Samuel Woolwine/
